# About the Project

This three-block project is located in the heart of Guzelyurt in North Cyprus, it's situated right next to the Middle Easter Technical University, one of the most prestigious universities in Turkey and North Cyprus.

Due to the increase in the number of students in this area, there is a constant demand for student housing and apartments.

Therefore the price of real estate in this area is gaining popularity and value with each day.

METU has been active in Guzelyurt for about 14 years and has been supporting the area with its student population of about 3200. The university's student capacity in its own dorm facilities is around 1600. The university students who are not in this narrow range are currently benefitting from the flats and other properties in the area.

This project is a great investment opportunity for anyone looking to earn a passive income. As the developer will also provide you with rental management for the units.
