European University of Lefke	13 mins		

About the Project

The first of its kind in North Cyprus, this brand new wellness project offers an unparalleled lifestyle. With 604 units to choose from, ranging from studios to one, two and three-bedroom apartments, there really is something for everyone looking to embrace a life of health and wellness.

Situated in the lush green region of Gaziveren, residents will have everything they could possibly desire. Top-of-the-range modern homes will provide the perfect balance of contemporary design and luxury, along with the most stunning views of Morphou Bay's beautiful coastline. Wake up each and every day to the sounds of the ocean lapping the shore, and admire the spectacular vistas that stretch beyond your windows.

Whether you're in the mood for exercise or relaxation, the project offers a range of hotel-like facilities and services right at the tip of your fingers. Enjoy a serene afternoon relaxing by the maintained beach, or take a refreshing dip in one of the outdoor swimming pools here. A well-equipped modern gym and yoga and meditation suites offer spaces to maintain both physical and mental wellbeing, whilst a wellness centre and spa provide a serene haven to escape to.

As well as the pinnacle of modern living, this project is also set to become one of the largest and most advanced wellness and anti-ageing centres in the Mediterranean, ensuring even more than just a gorgeous home and luxury lifestyle. You'll have access to a variety of amenities designed just for your wellness, including a functional medical centre, beauty and anti-ageing centre, and advanced diagnostics and check-up centre – it's all right here!

Not only will the 6000m² wellness facility centre have all you could want and need, but the location couldn't be better too. Along with direct access to the sun, sea and sand; you can also enjoy gorgeous walks through the landscaped parks and gardens, a sense of adventure at the surfing & watersports club, and fine dining in nearby restaurants. What's more, just two minutes from the project site will be a large fully-equipped hospital funded by Turkey's famous Aci Badem Hospital and Johns Hopkins Institute. Don't miss out!
